### **Credentials- what do they mean?**

A psychiatrist is a physician who specializes in psychiatry, the branch of medicine devoted to the diagnosis, prevention, study, and treatment of mental disorders.

The child and adolescent psychiatrist is a physician who specializes in the diagnosis and the treatment of disorders of thinking, feeling and/or behavior affecting children, adolescents, and their families. A child and adolescent psychiatrist offers families the advantages of a medical education, the medical traditions of professional ethics, and medical responsibility for providing comprehensive care.
